

Post-Graduate Certificate in IB Education

The world is moving at a rapid pace, demanding that we keep up while also learning to slow down, reflect deeply, and work toward a good life for all. Education, therefore, is not simply about providing answers but inspiring questions, both the seemingly small and the audaciously large. *How do lights come on? How can I see my mother on a phone screen from miles away? Why is the climate changing? How do we respond to rising inequality? Why do people think and act differently?*

It is no longer enough to learn content or skills alone. As India's NEP 2020 states, "children must not only learn, but learn how to learn." Yet the task is greater still: we must help young people attune to the world around them, seek wisdom, and act with purpose.

The challenges before India and the world demand teachers who can nurture curiosity, guide thoughtful decision-making, and orient students toward a flourishing, interdependent planet. This aligns with the International Baccalaureate (IB) mission to educate young people who "help create a better and more peaceful world through intercultural understanding and respect."

The Post Graduate Certificate in IB Education (PGC-IB) at I Am A Teacher (IAAT) is designed to prepare teachers for this responsibility. The experienced faculty at IAAT achieve this through understanding that teachers need to first be equipped for this task themselves. Through mindful leadership, reflective practice, and grounding in IB philosophy, graduates will enhance teaching and learning, enabling students to collaborate across differences.

It is for these reasons that the Faculty of Education at The University of Melbourne is pleased to be working with IAAT to endorse the PGC-IB program.

Dr Stephen Chatelier

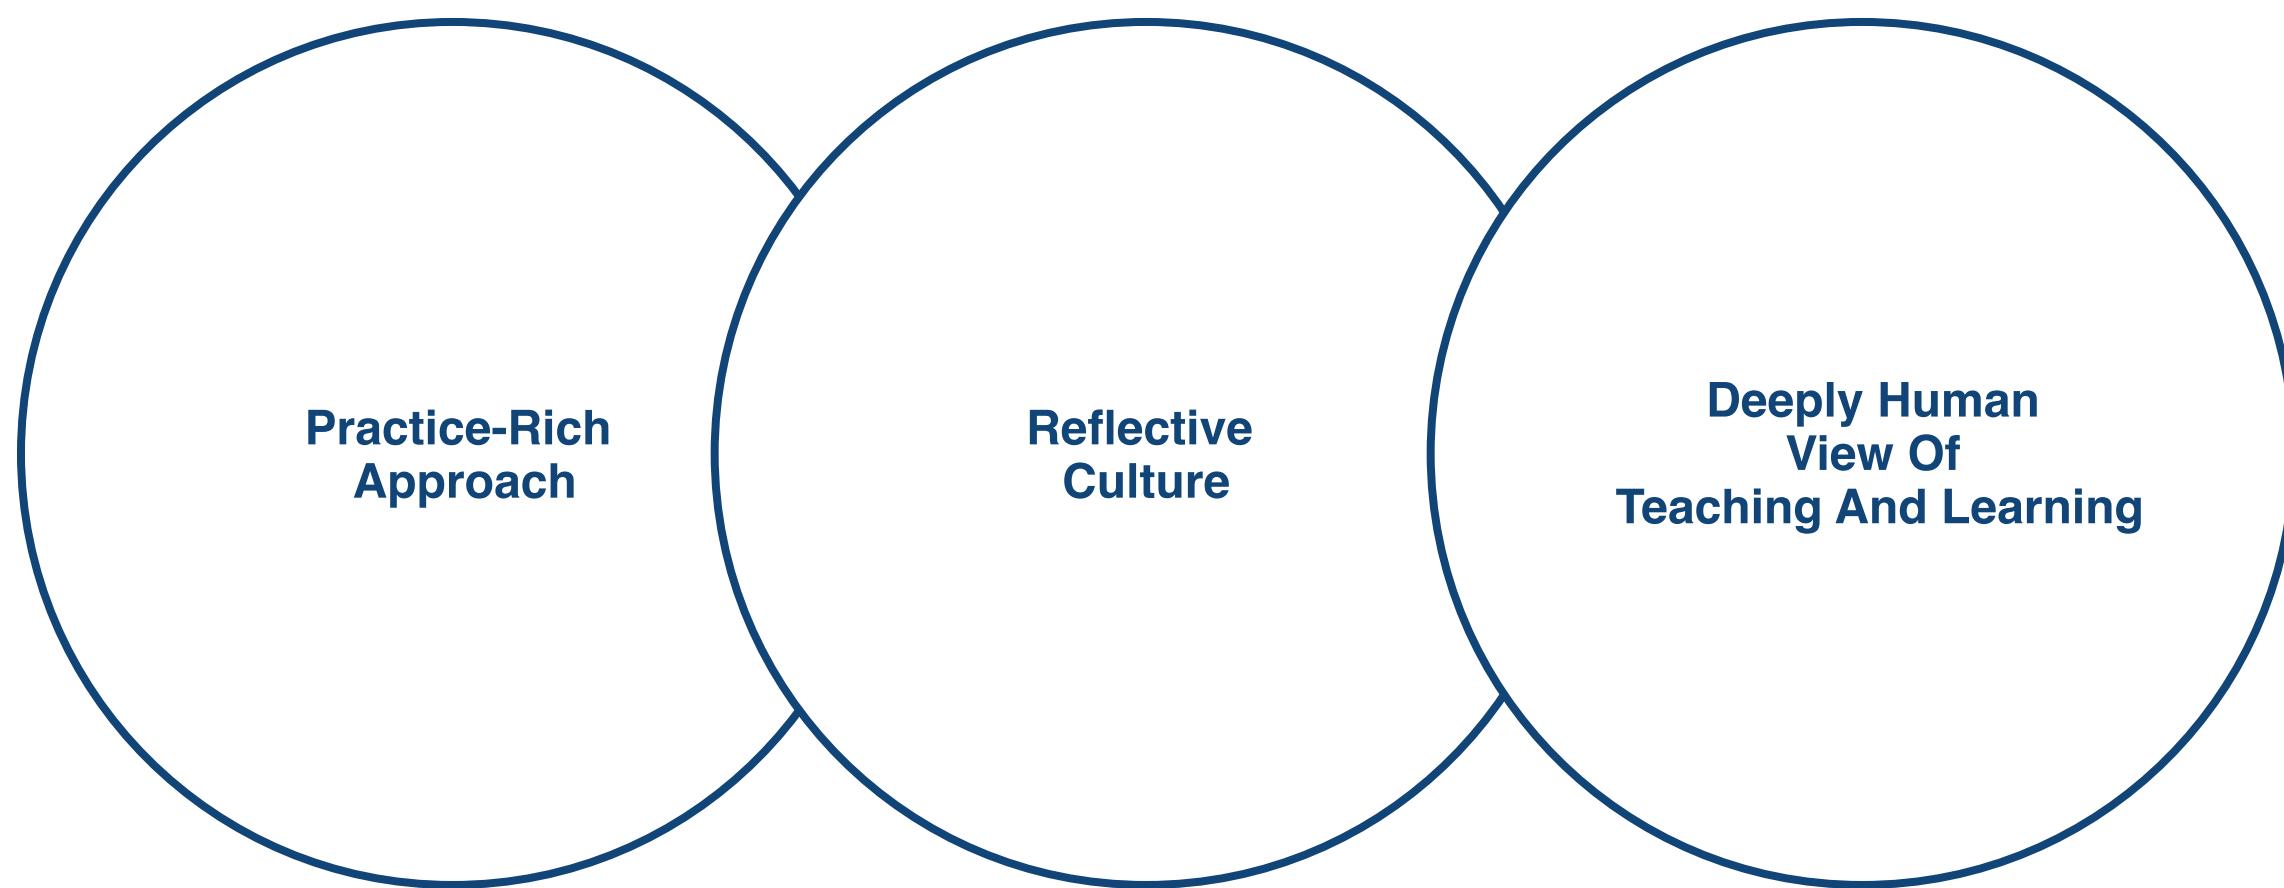

Senior Lecturer in International Education
Course Coordinator, Master of International Education (IB)
The University of Melbourne

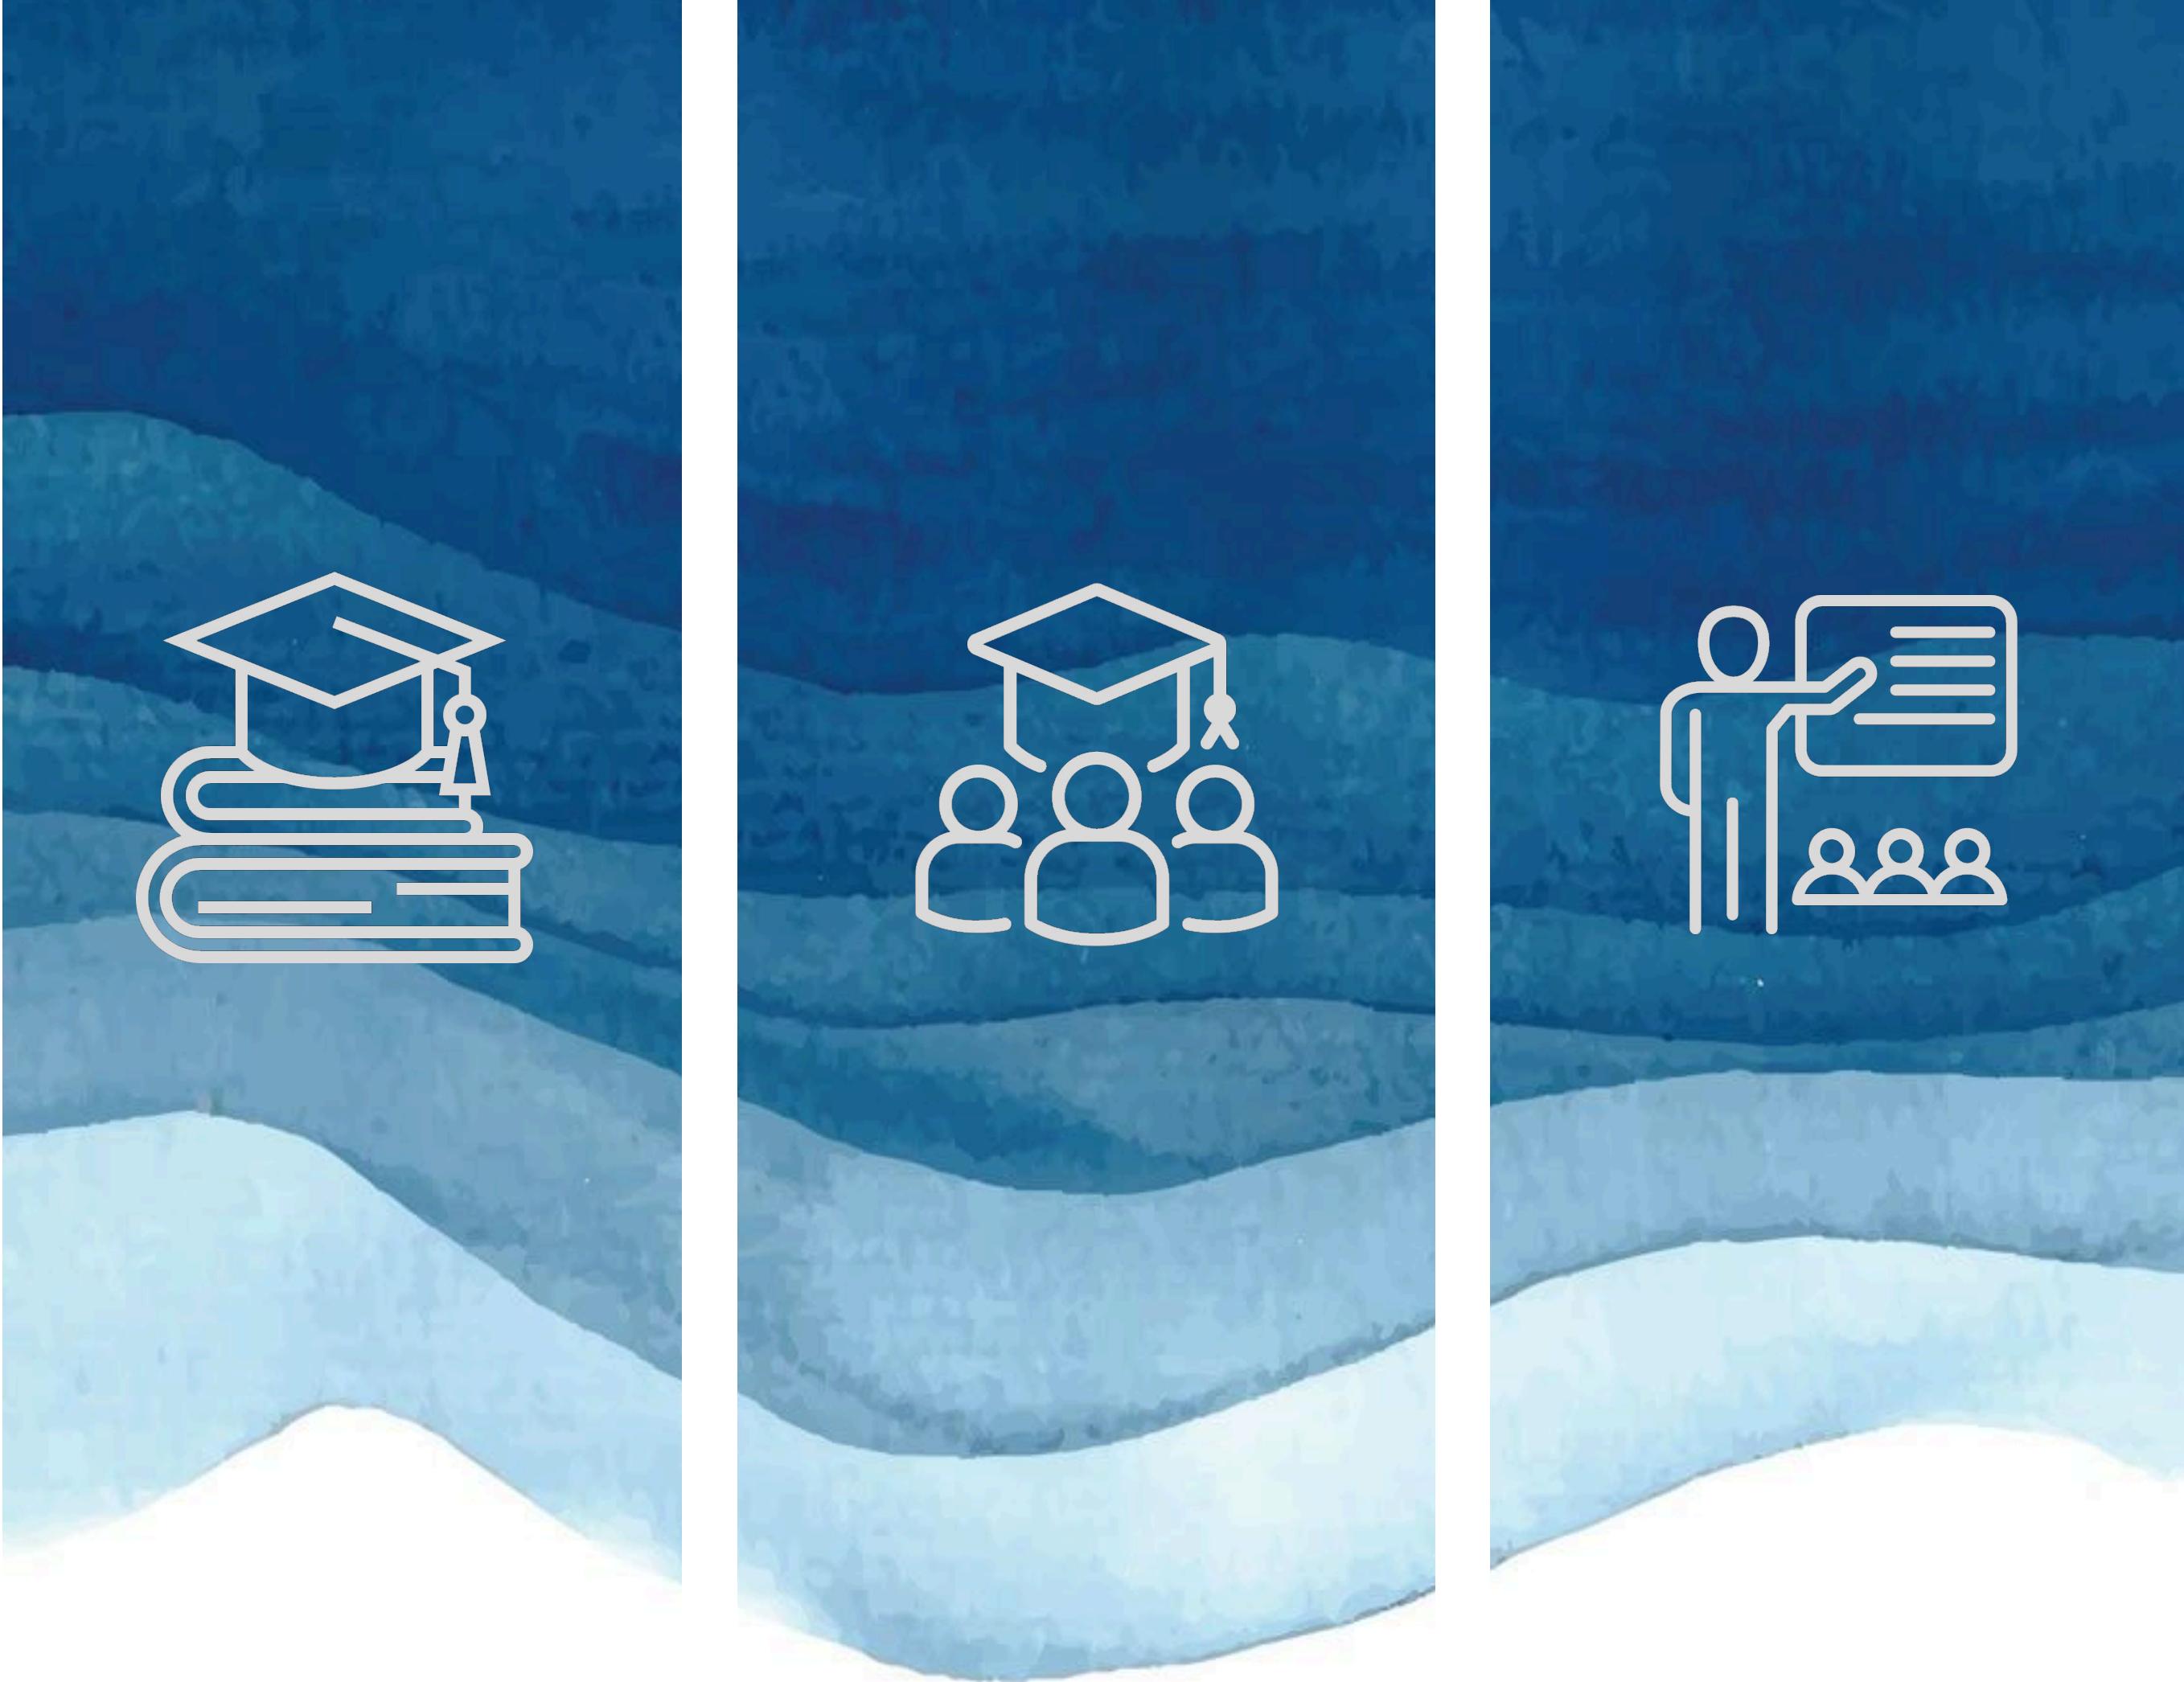

I Am A Teacher (IAAT) was founded with a simple but profound belief:

The promise of a nation lies in the hands of its teachers, and teachers flourish through the depth and integrity of their preparation.

Over the past decade, IAAT has established a model of excellence in teacher education and school leadership. As an institution, IAAT is known for its practice-rich approach, reflective culture, and deeply human view of teaching and learning.

The vision is to transform education by preparing a critical mass of educators who lead change in and through classrooms.

600+

**EDUCATORS
SHAPED**

through year-long immersive learning experiences

800+

**SCHOOL
LEADERS**

engaged in leadership development with IAAT

10,000+

**EDUCATORS
TRAINED**

in integrating AI tools for deeper learning

Alumni are working across boards like IB, Cambridge, CBSE and in progressive schools in India and abroad. They are from diverse fields including medicine, engineering, law, finance, and from institutions such as AIIMS, IIT, NYU, USC, and Stanford.

The Postgraduate Certificate in IB Education

As our world transforms through digital innovation, AI, and new technologies,

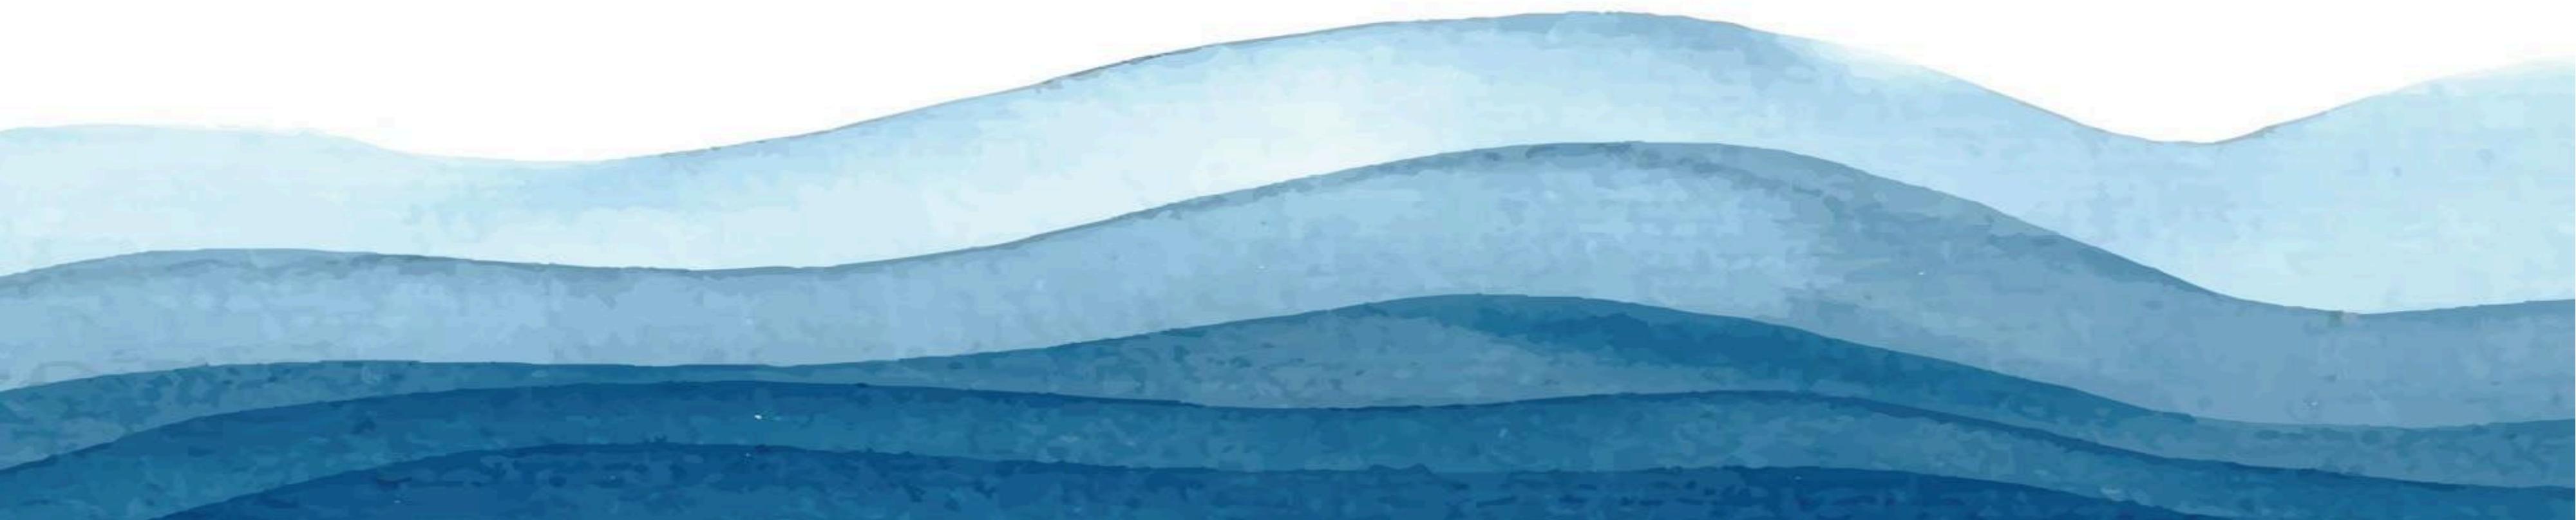

Children will need the capacity to think critically, act ethically, and adapt to change.

IB education prepares them for such a future by nurturing inquiry, global mindedness, and the ability to navigate complexity with thoughtfulness and care.

The Postgraduate Certificate in IB Education is a pathway to understand and teach through the lens of IB philosophy. The course is designed for those who seek to reimagine their role as educators, broaden their worldview, and bring child-centered, inquiry-driven, international-minded practice into their classrooms.

Rooted in I Am A Teacher's belief

that teaching is a deeply human act, the program encourages educators to reflect, question, and grow in ways that shape both their practice and their identity.

DUAL CERTIFICATION

The University of Melbourne

#1 In Australia

#19 In The World

**Post Graduate Certificate in IB Education (PGC-IB) Awarded
by I Am A Teacher and endorsed by The University of Melbourne**

International Baccalaureate

1.95 M Students

6,000 Schools

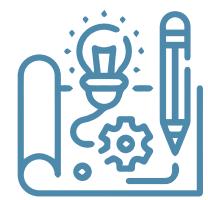

160 Countries

**IB Certificate in Teaching and Learning (PYP) Awarded by the
International Baccalaureate (IB)**

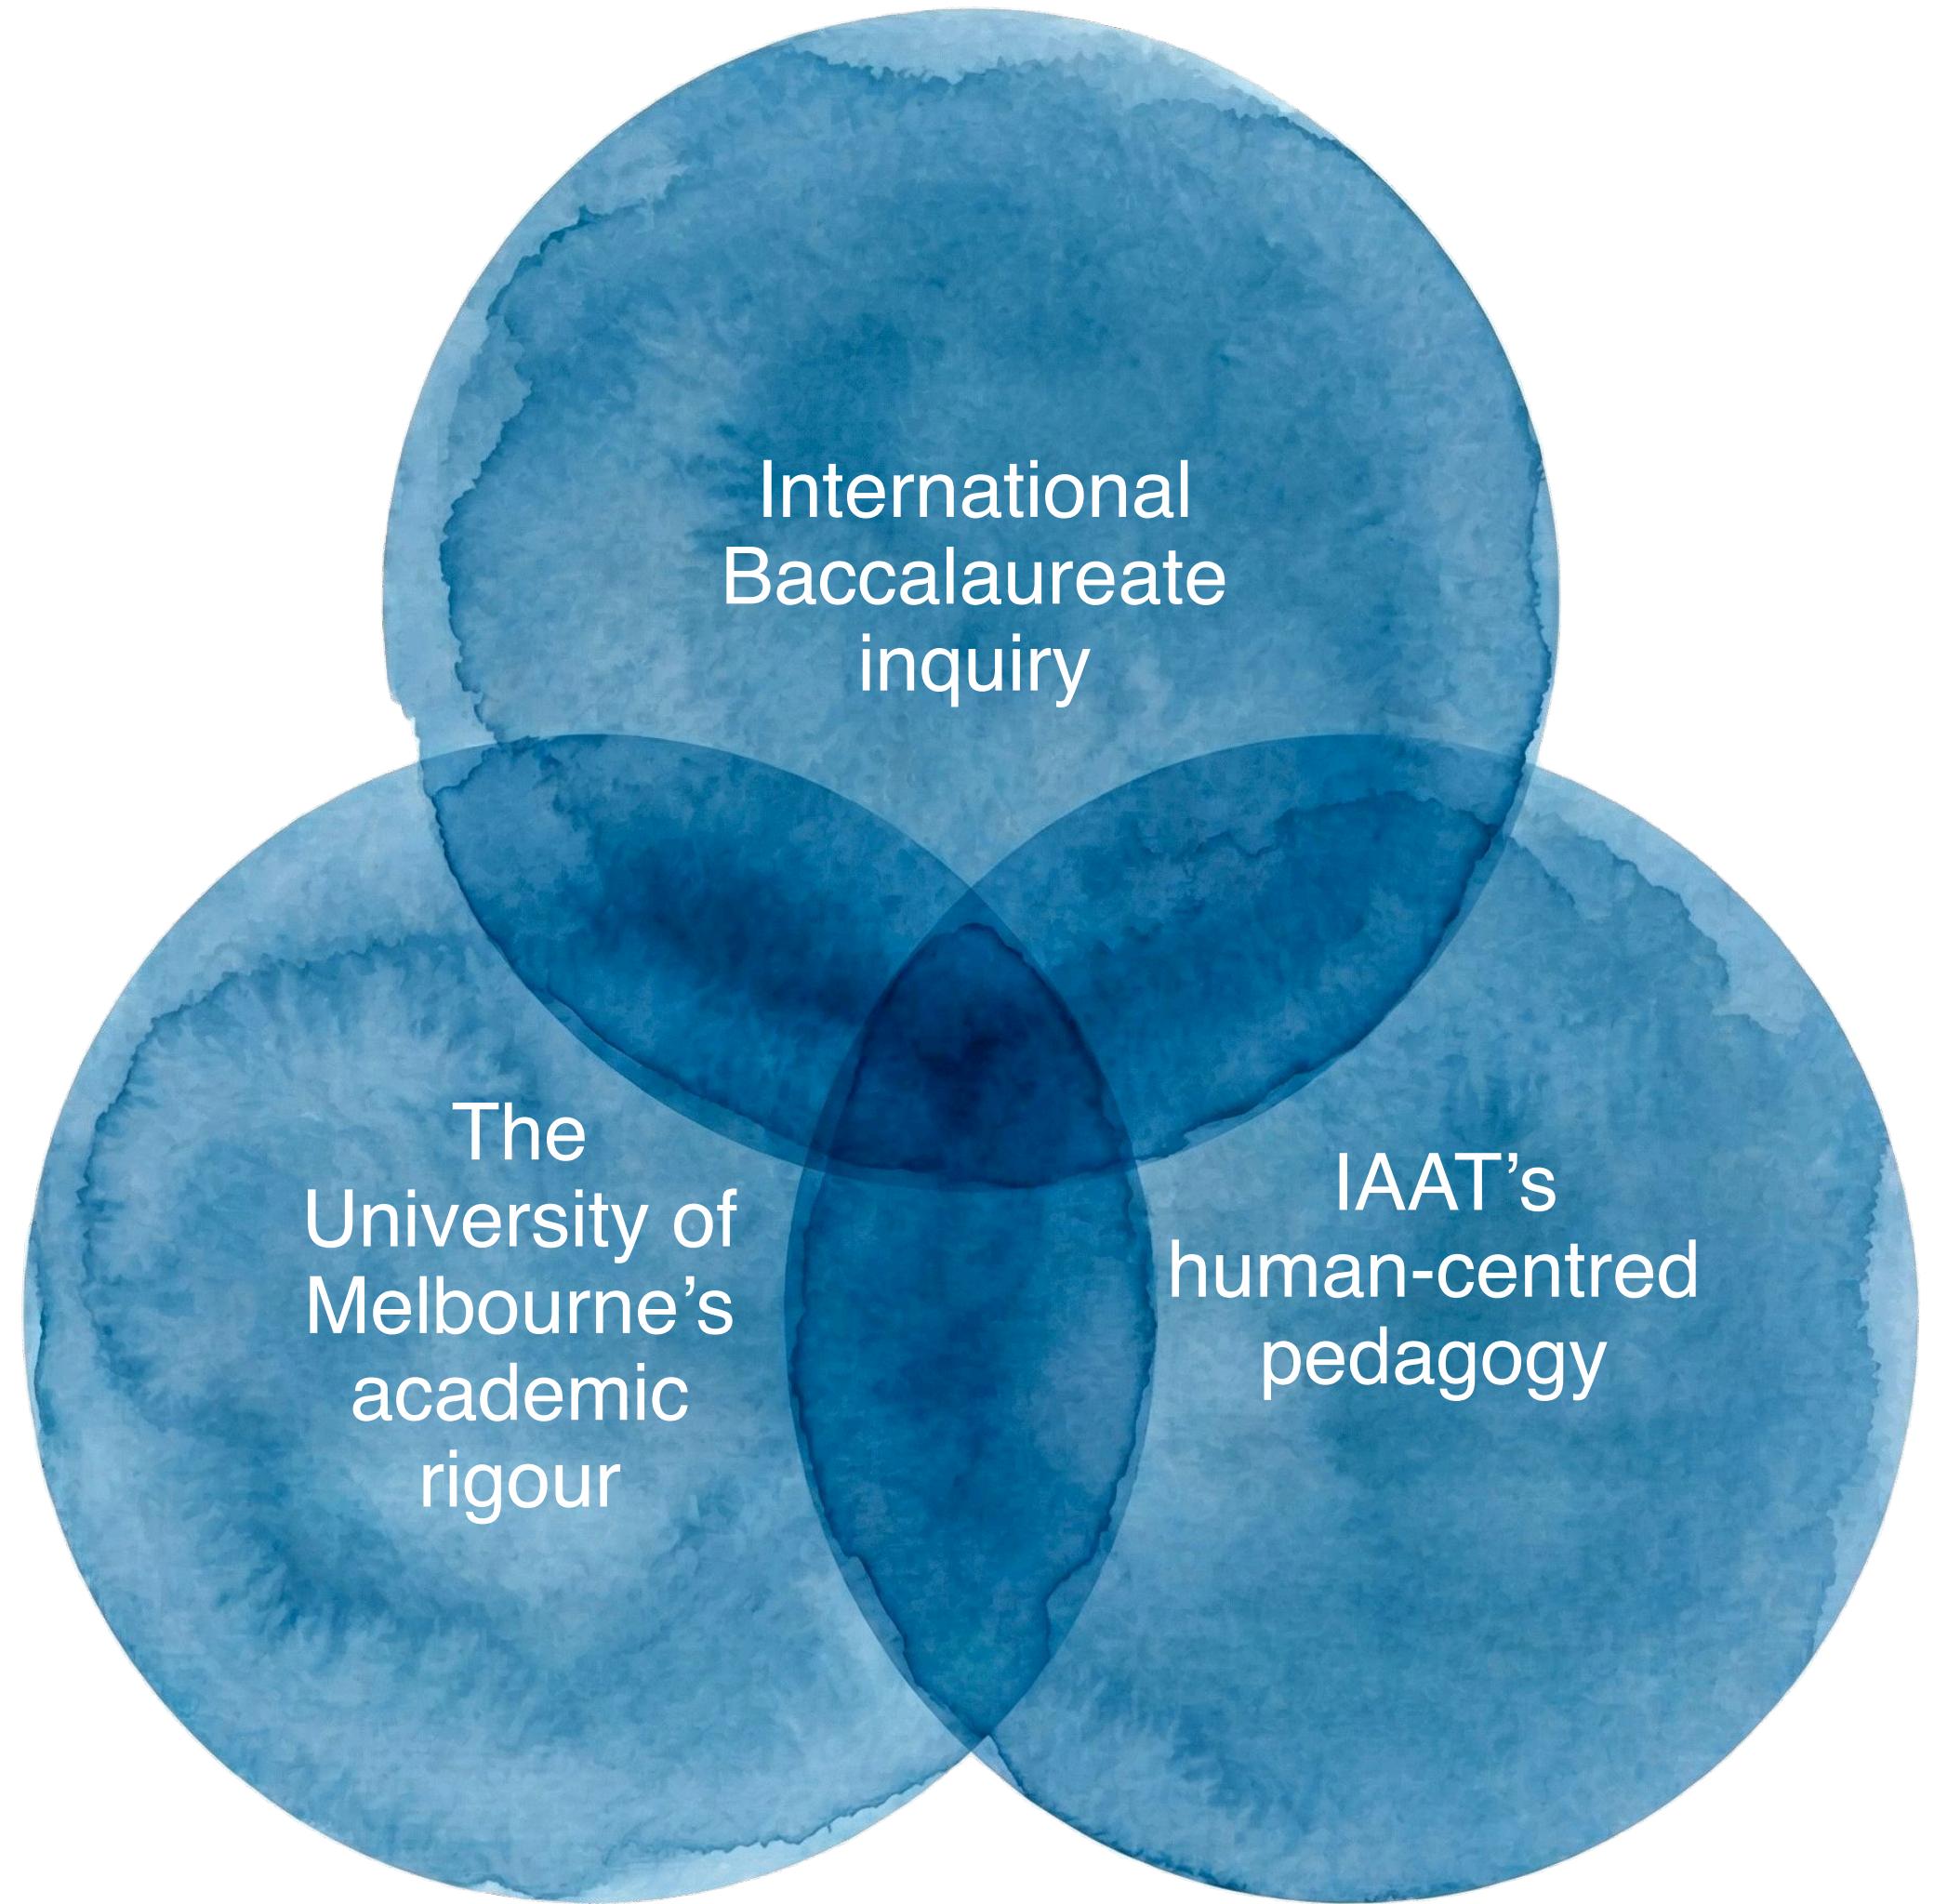

The PGC-IB program meets the requirements for the IB Certificate in Teaching and Learning, PYP. Graduates can apply for the formal certificate from the IB after completing the program.

TRIAD OF EXCELLENCE

A Distinctive Learning Design

Structured processes
for lesson design,
feedback, and dialogue

Live sessions with
collaborative learning
circles

Classroom practice
that strengthens insight

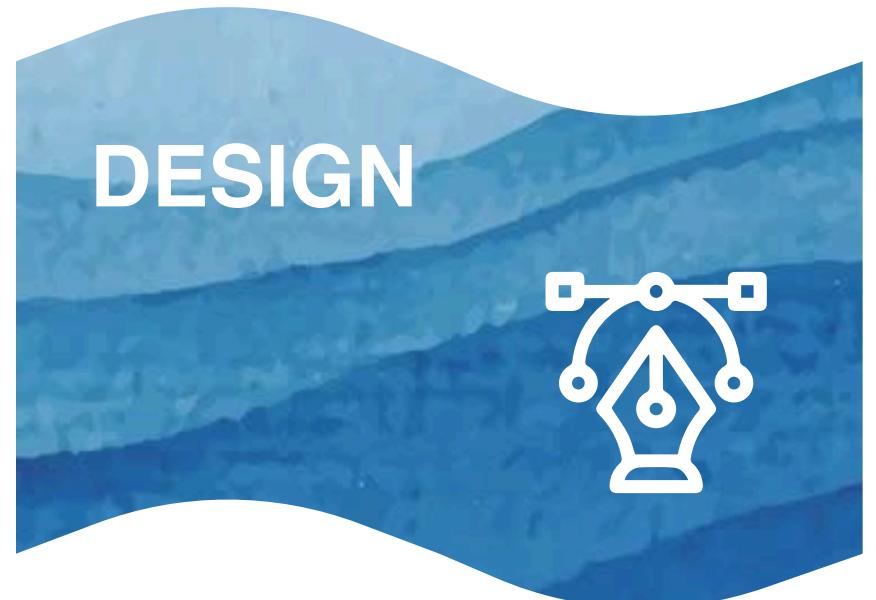

Mentorship that builds
pedagogical depth

Portfolio: Showcase of growth and authentic voice

PGC- IB GRADUATE ATTRIBUTES

Beyond methods and strategies, the PGC-IB educator carries a way of being. This identity is not shaped by checklists of skills, but cultivated through inquiry and a profound respect for children and learning.

They:

with Thoughtfulness and Purpose

with Inquiry and Openness

with Clarity and Integrity

through Reflection and Collaboration

with Mindfulness and Presence

with Responsiveness and Inclusion

Who is it for?

- Those who love working with children and are exploring a future in teaching
- Individuals who feel called to education and want a meaningful, purposeful career
- Educators seeking global opportunities in international schools
- Teachers returning after a career break who want an internationally recognised qualification
- Recent graduates looking to deepen their pedagogical perspective
- Those transitioning from national or state boards into the IB board

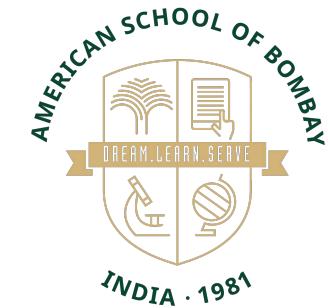

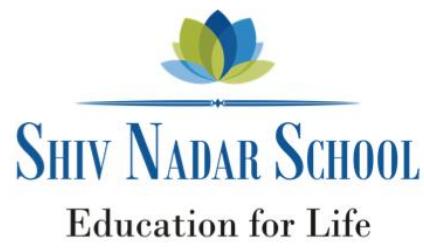

Eligibility

Bachelor's in Education
(or equivalent qualification)
from a recognised university

OR

Bachelor's Degree
in any discipline with a minimum of
three years of teaching experience

Where Our Teachers Shape Classrooms

And many other leading IB, Cambridge, and progressive schools across India.

“Honestly, I did not expect this programme to be the life-transforming experience that it turned out to be. My time at IAAT has given me more food for thought than my entire education could give.”

Sunayana Uberoy,
University of Southern California, IAAT Alumna

“In IAAT, I realised how essential it is for children to have hands-on experiences, reflect on them, and construct their own knowledge. It gives them a context for life, a way to carry their learning into every new situation they encounter.

Sumeeta Ghosh,
B-tech IIT Kharagpur,
Former Senior IT and Fintech Consultant, IAAT Alumna

“My IAAT journey transformed how I see teaching. Learning now feels joyful, alive, and continuous. Even in an online format, the sense of connection and community was exceptional.”

Sumedha Hegde,
School Founder, IAAT Alumna

“...your training program has created the mindset & framework for the complex practices of the International Baccalaureate, better than any other background or training I have seen.”

Dr Shalini Advani,
Former School Director,
Pathways School

“IAAT teachers are open to feedback and willing to learn, waiting for the last child in their class to understand concepts before moving on.”

Ms Sudha Sahay,
Principal,
The Shri Ram School,
Aravali

“... IAAT-ians have a bigger role to play than even the IIT-ians of India... IAAT teachers will transform our society, shape the lives of our children, parents and the community.”

Ashish Dhawan,
Founder, Ashoka University
& Central Square Foundation

Academic Team
